# Peering Policy

## AS 204508

Peering is the direct interconnection between MLGT's network and another network to support the exchange of internet traffic. Networks peer to gain performance, economic and traffic control benefits.

### **MLGT has an open peering policy.**

We're able to peer at the internet exchanges and private facilities listed in our PeeringDB entry.

### Peering Information

ASN: *204508*

AS-SET: *RIPE::AS-MLGT*

PeeringDB info: *as204508.peeringdb.com*    Contact (NOC): *noc@mlgt.info*

To peer with us, you must have:

- Publicly routable ASN
- Publicly routable address space (at least one /48 of IPv6 space)
- ASN record completed in PeeringDB
- 24x7 NOC contact
- Up to date IRR records

## Requirements

- The peer must not advertise our prefixes to transit providers.
- The peer must not advertise to us other than own and customer prefixes.
- The peer must provide their contact for their 24x7.
- Routes being sent must pass ROA validation.

## Important Notices

- MLGT reserves the right to grant or refuse peering with a requesting network.
- RPKI invalid prefixes will not be accepted.
- If you wish to peer with AS204508, send us your request to [noc@mlgt.info](mailto:noc@mlgt.info).

*The Peering Policy is made available for informational purposes only. It does not constitute an offer to enter into a Peering Agreement.*
